- (h) Introduction to the vehicle and equipment. This can take approximately three hours, depending on the renter's experience.

2. MINIMUM RENTAL DURATION AND COSTING

2.1 The minimum rental period is seven days at published branches and depots in South Africa, Botswana and Namibia. A minimum of 15 days applies at any other pre-arranged collection point.

2.2 The collection and return days are counted as full rental days, irrespective of the collection or return time.

2.3 No refund applies for an early return.

2.4 If the supplier incurs additional costs at an outstation because of the renter's late or delayed arrival, those costs will be for the renter's account.

3. OFFICE HOURS, COLLECTION AND RETURN

3.1 Normal office hours are 08:00 to 16:30, Monday to Friday.

3.2 Deliveries and collections are included during normal office hours from Monday to Friday. After-hours, Saturday, Sunday and public-holiday arrangements are subject to a ZAR/NAD/BWP 850 surcharge per vehicle and must be agreed in advance.

3.3 The collection point, flight number, collection time and a working mobile number must be provided at least one week before collection. The Supplier cannot be held responsible for late collection if these details are not provided.

3.4 Vehicles may not be returned at an airport. They must be returned to an depot by 16:00 at the latest.

3.5 All offices are closed on 25 December and 1 January.

3.6 The return must be arranged with the relevant branch at least 24 hours in advance. Allow two hours for the vehicle and equipment inspection. The vehicle must be inspected and signed off by both the Rental representative and the renter.

4. RELOCATION AND ONE-WAY FEES

4.1 Relocation and one-way fees apply in accordance with the current relocation list. Additional collection or return points are available on request.

4.2 A relocation fee may apply when a vehicle must be moved between depots to fulfil a rental, even when the renter's collection and return location is the same.

5. VEHICLE USE

5.1 The renter acknowledges the purpose for which the vehicle was designed and accepts responsibility for following all safety and maintenance procedures, caring for the vehicle during the rental and returning it in good order, fair wear and tear excepted.

5.2 The renter is responsible for the replacement or repair of any vehicle equipment or belongings that are lost, damaged or missing. Waiver cover applies to qualifying theft and collision damage to the vehicle, but does not cover lost or damaged equipment, the canopy, tents or awning.

5.3 Driving between dusk and dawn is not permitted. The restricted driving period is from 18:00 to 06:00. A breach may affect the validity of the selected waiver cover.

5.4 Written authorisation and the applicable cross-border documentation are required before the vehicle may travel outside South Africa.

- (a) The supplier is not responsible for ad hoc fines, levies or extraordinary costs incurred outside South Africa.
- (b) Cross-border vehicle documents must remain valid for at least 14 days after the rental ends. Any penalty arising from non-compliance will be charged to the renter.
- (c) A copy of each driver's licence and passport must be provided at least seven days before the rental begins so that the required documentation can be prepared. The Supplier cannot be held responsible for delays caused by missing or incorrect information.

5.5 The renter must check the vehicle and equipment thoroughly at handover, including the wheel-changing tools and tyre condition. By signing the rental agreement, the renter accepts the vehicle and equipment.

6. REPAIRS, MECHANICAL FAILURES AND RUNNING COSTS

6.1 Mechanical repairs or replacements arising from fair wear and tear are covered by the supplier. Repairs up to ZAR/NAD/BWP 5,000 may be carried out without prior approval; higher amounts require prior authorisation. The renter is responsible for taking a mobile vehicle to the nearest workshop. If the vehicle is not mobile, it must be towed to the nearest workshop for diagnosis.

6.2 Manufacturer warranty conditions apply where relevant. The supplier is not the manufacturer of the vehicle or equipment, but will take reasonable steps to select, maintain and inspect the vehicles and equipment before departure.

6.3 If a serious mechanical failure caused by fair wear and tear cannot be repaired promptly, a replacement vehicle will be supplied within 24 hours of diagnosis in South Africa, Botswana or Namibia. The replacement period is 72 hours in Zimbabwe, Southern Mozambique and Southern Zambia.

6.4 Inconvenience and time lost because of an unanticipated mechanical failure are not covered.

6.5 Towing is covered by the waiver in South Africa, Botswana and Namibia. Towing in Zimbabwe, Southern Mozambique and Southern Zambia is for the renter's account.

6.6 The vehicle must be fully refuelled within a 10 km radius of the return point. The supplier may verify the fuel level by refilling the vehicle. Long-range fuel tanks may not be full even when the fuel gauge indicates full.

6.7 A standard ZAR/NAD/BWP 850 cleaning fee applies to every rental and covers cleaning the vehicle exterior, interior, linen, crockery and cutlery. If the vehicle requires professional valeting, the additional valet cost will be charged to the renter.

7. VEHICLE MAINTENANCE

7.1 Vehicles are serviced and maintained in line with manufacturer requirements and the suppliers additional maintenance procedures.

7.2 During the rental, the renter must monitor tyre pressures, wheel nuts, wheel alignment where necessary, engine oil, coolant levels and any developing symptoms.

7.3 If a service interval is reached during the rental, the renter must arrange the service at an appropriate manufacturer-associated workshop. Another workshop may be used only with prior authorisation. Scheduled servicing and repairs caused by fair wear and tear are covered by the supplier.

7.4 Service intervals are 15,000 km for Ford Ranger vehicles and 10,000 km for Toyota Hilux, Toyota Land Cruiser and GWM vehicles.

8. COLLISION DAMAGE AND ACCIDENTS

- 8.1** Every accident must be reported to the local police within 24 hours and a police case number must be obtained. Without a police case number, all waiver conditions fall away and the renter may be held liable for the full repair costs to the rental vehicle and any third-party vehicle.
- 8.2** The renter must obtain the third party's contact details, vehicle registration number, insurance details and any other relevant information and submit these to the supplier.
- 8.3** If collision damage makes the vehicle unusable, the supplier may supply a replacement vehicle, subject to availability.
- 8.4** The renter is responsible for returning a damaged vehicle to the original branch or depot when the incident occurs outside South Africa, Botswana or Namibia.
- 8.5** No refund is provided for rental days lost because of collision damage.
- 8.6** If the rental continues in a replacement vehicle, a new rental agreement and Standard Waiver conditions will apply.
- 8.7** The applicable liability and exclusions depend on the waiver option selected.

For a vehicle less than one year old, the replacement cost will be the retail value of a new vehicle. Accessories, spares, equipment and tools will be replaced as new.
- 9.3** Any breach of the rental agreement may result in the supplier withholding a replacement vehicle and will make the renter fully liable for damage to the vehicle.
- 9.4** The supplier is not obliged to pursue a recovery claim against a third party and may abandon or settle such a claim on reasonable terms.
- 9.5** Waiver cover is valid in South Africa, Botswana, Namibia, Zambia, Zimbabwe, Mozambique, eSwatini and Lesotho. Special permission is required for any other country in Sub-Saharan Africa.
